ON CENTER SOFTWARE RELEASES THE DIGITAL TAKEOFF TABLE[®] 2 SOLUTION

INTEGRATED SOLUTION INCLUDES NEW FEATURES

The Woodlands, Texas (August 24, 2010) – On Center Software, the award-winning construction software provider, announces the release of the Digital Takeoff Table 2 solution. This takeoff solution is offered through On Center Software and manufacturer Wacom, and integrates with the latest version of On-Screen Takeoff[®] to generate digital construction takeoffs.

The Digital Takeoff Table 2 is a hands-on digital takeoff solution that furthers the technology developed for the original Digital Takeoff Table solution (released by On Center Software in 2009). Designed to increase takeoff speed and accuracy, the Digital Takeoff Table 2 solution includes a 21.3-inch write-on monitor, a patented cordless grip pen, 16 customizable ExpressKeys that give users access to On-Screen Takeoff-specific shortcuts, and grip pen calibration to better simulate writing with a pencil on paper plans.

The Digital Takeoff Table 2 solution includes the write-on monitor, cordless pen, and the On-Screen Takeoff integration file. On-Screen Takeoff licenses are sold separately.

For more information about the Digital Takeoff Table 2 solution and other On Center Software products, please contact On Center Software at 866.627.6246, or visit us on the Web at www.oncenter.com.
